To use another program with the file, you'll just need to start that other program manually first, and then browse your computer for the file and open it. For example, you can open Microsoft Word and use its File > Open menu to open a DOC file that is normally associated with Word, but doing so doesn't actually change the file association for DOC files as explained above.

Hi all, I'm trying to install a laserjet 1320 on Windows 10 64 bit and can't get it to work. I tried to install the driver both through the control panel and downloading the driver from the HP site, named "HP LaserJet USB (DOT4) communication driver for Windows 8 and Higher (64-bit)." When I click on the file, "dot4x64.msi", a window flashes and disappears abruptly and doesn't allow you to ...
