Anatomy of the Spirit: The Seven Stages of Power and ...

Anatomy, a field in the biological sciences concerned with the identification and description of the body structures of living things. Gross anatomy involves the study of major body structures by dissection and observation and in its narrowest sense is concerned only with the human body.. "Gross anatomy" customarily refers to the study of those body structures large enough to be examined ...

The application of anatomical research to clinical problems requires selectivity in choosing from numerous publications. Surgical and Radiologic Anatomy, the first international journal of Clinical anatomy operates in the spirit that meaningful progress remains to be made.

Surgical and Radiologic Anatomy - Springer

Gray's Anatomy is an 80-minute concert film directed by Steven Soderbergh in 1996 involving a dramatized monologue by actor/writer Spalding Gray. The title is taken from the classic human anatomy textbook, Gray's Anatomy, originally written by Henry Gray in 1858. It was shot in ten days in late January 1996 during a break Soderbergh had from post-production on his previous film, Schizopolis.

In the wild, the cannabis lifecycle begins when a seed germinates and begins to burrow into the soil with a root. A stem will develop, and a sprout with a pair of leaves will emerge. During the seedling stage, the baby plant is literally finding its feet. Only as the infant plant begins to transition to vegetative growth does the cannabis grower begins to notice nodes and internode spacing.
