FLYING THE 757 - Peter McLeland

I have created a forum in which all interesting movements can be found. Also airline, storage and scrapping news related to the Boeing 757 will be available on the forum along with a section where you can ask your questions about the 757. More photos will be added towards to the end of this year, because of me moving into a new house soon.

Well, if an aircraft does an ILS approach, the glide slope is 3%; with this you should be able to figure out vertical speed; I have a copy of the 757/767 Crew Training Manual in which they do not specifically talk about vertical speeds, the only thing I can find, is 300 ft per NM, hopefully this will help.

Boeing 757-300 Specifications - MVN's Boeing 757 Website

The Boeing 757 is a mid-sized, narrow-body short to medium range, twin-engine airliner that was designed and built by Boeing Commercial Airplanes.It is the manufacturer's largest single-aisle passenger aircraft and was produced from 1981 to 2004. The twinjet has a two-crew member glass cockpit, turbofan engines of sufficient power to allow takeoffs from relatively short runways and higher ...
