optical fiber communication  
systems started to appear in  
the 1970s. It is this  
technology that this book  
addresses. To exchange  
information between any two  
devices in a communication  
system, some type of  
electric or optical signal  
which carries this  
information has to be  
transmitted from one device  
to the other via a  
communication channel. This
