The K20A : Honda's first DOHC iVTEC Engine. The K20A used in the new Honda STREAM is the first of the new generation i-VTEC engines. Eventhough the engine does not produce a humongous amount of power in absolute terms, the importance of the engine is that it tells us of the new technologies that Honda is working on, and directly indicates the technologies that will be used on the new ...

The K20A : Honda's first DOHC iVTEC Engine

I asked this question because my car has had that 3 stage engine, but then it got swapped for a normal D15B vtec-e though !... Indeed my current ecu is a P2J - now as far as i`m concerned the only thing i can spot of a vtec-e on my current engine is simply the vtec-e valve cover. Eveything else looks like a normal d15b vtec.

D15B VTEC - 3 stage wiring | HondaSwap

Honda used VTEC for two applications: Fuel economy. For example the F18B engine with peak power of 136 shp. Rev limit of about 6000 rpm. Sometimes called i-VTEC. Performance is decent but not spectacular (many have low torque at low rpm so you need to shift down for overtaking).

engine - Is V-TEC Reliable? - Motor Vehicle Maintenance ...

You can't even use the harness from the D15B VTEC IIRC. When I got mine, the guy already replaced it with a D16Z6 harness. The JDM harness has the engine connectors on the opposite side. As for the ECU, a P28 will run it just fine; but if you can get your hands on a P08 it'll run a little better.
