described in the HP 3800 Switch Installation and Getting Started Guide, but do not connect them together with stacking cables yet. Make sure that stacking is enabled for each switch.

Configuring a stack - Hewlett Packard Enterprise

NOTE: In the default configuration, stacking is enabled on HP 3800 switches. However, if an HP 3800 switch is powered on and it does not have a Stacking Module installed, stacking is disabled. If a Stacking Module is subsequently installed in the switch, stacking must be enabled from the switch CLI (in the configuration context) by entering the ...

Stack management for the 3800 switches
HPE / Aruba 3800 Series – Replacing a Switch Stack Member This guide might be a bit dated as the 3800 series switches have been replaced by the 3810 and are approaching EoL. However, some early HPE 3800 Switches have issues with PoE and four to eight ports will fault at random times, for no apparent reason.

Read Book Hp 3800 Stacking Guide

Depending on which method you want to use, you can follow the steps in order to create the stack. Generally the easiest is to have all switches powered off, the cables connected, and power each switch one by one (let the switch fully boot up and join the stack before powering on the next one) and that way, each stack member ID will match the physical switch order.

HP ProCurve Stack Management

Hmm, the HP Procurve 2920 was a special model that actually had "real" stacking, with the stacking modules. The other Procurve devices simply had the "stacked management" that you mentioned. Newer models of Aruba should support that as well, since they run the same code as the older Procurves, and are essentially the same switches.

HPE HP 3800 4-port Stacking Module (J9577A)

We are looking to replace our single layer 3 switch with something more redundant and have looked at HP E3800 series switches running IRF. As one virtual switch I'm wondering how to cable. With the stacking modules in place, does this mean if one switch toasts the other switch even though it may not physically have cabling, take over all functions?
