Advanced Avionics Handbook - Federal Aviation Administration

The avionics package is compatible with 5th generation fighter systems and it is inspired by the MiG-21 Lancer upgrade but adapted to IAR 99 needs. The first upgraded IAR 99 was the 18th production aircraft (number 718), which performed its first flight on 22 May 1997. The upgraded IAR 99 was displayed at Paris in 1997 and Farnborough in 1998.

IAR 99 - Wikipedia

The entire ecosystem of aviation avionics software development will be revisited to include the DO-326/ED-202-Set as a new, integral member of the "classic" safety-oriented development process including the SAE standards ARP-4761 for Safety & ARP-4754A for Systems Development, and software & hardware development standards DO-178C & DO-254 ...

DO-326A and ED-202A: An Introduction to the New and ...

The Boeing E-3 Sentry is an American airborne early warning and control (AEW&C) aircraft developed by Boeing. E-3s are commonly known as AWACS (Airborne Warning and Control System). Derived from the Boeing 707, it provides all-weather surveillance, command, control, and communications, and is used by the United States Air Force, NATO, Royal Air Force, French Air and Space Force, and Royal Saudi ...
