INDUSTRIAL DIESEL ENGINES. Lombardini currently offers (worldwide) a variety of single and multi-cylinder air cooled engines with displacements from 225 cc to 3.7 liters, and liquid cooled engines from about 500 cc to 2.2 liters. Parts and service support for all of Lombardini's current and past engines are available throughout North America, but emissions certification and compliance costs limit the engines offered for sale in the the US market.

Lombardini & Kohler Diesel Engines: Industrial & marine ...

If this is a pull start engine you will need to use the compression release to get it to pull over. All the Lombardini engines I have are two cylinder and electric start so I cant be real specific here, but on the Yanmar singles I have pull over until you feel compression, set compression release and give her a good pull.
