Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

Notes On The Herpetofauna Of

From June 2012 to December 2014, we conducted several surveys at a locality known as Barranca El Tecolote, in the municipality of Mazamitla, Jalisco, Mexico. Working on a date list of the herpetofauna of the area, a total of five species of
