Laser Manufacturer | Lasers for industry | Kingston upon Hull  
Coherent-ROFIN delivers a broad range of CO 2 lasers that reaches from sealed-off products up to multi-kW lasers in the power range from 30 to 8,000 W. Whether for laser cutting, welding, structuring, perforating, drilling or laser marking – our established CO 2 lasers are always a good choice.

CO2 High Power Lasers - ROFIN  
Sealed-Off CO 2 Lasers The optical resonator of this CO 2 laser is formed by the front and rear mirrors and two parallel RF-electrodes. Excitation of the laser gas takes place in the RF field between the water-cooled electrodes. The heat generated in the gas is dissipated by the water-cooled electrodes (diffusion-cooled).
