Set in Birmingham, England, the series follows the exploits of the Shelby crime family in the direct aftermath of the First World War. The fictional family is loosely based on a real 19th-century urban youth gang of the same name, who were active in the city from the 1890s to the early twentieth century.

Shelby GT350 gets a new standard aluminum wheel. The wheel sizes are the same width (Front 19" x 10.5" / Rear 19" x 11") as the previous Shelby GT350 wheel on the 2015-2018 models. The new wheel still has 10-spokes but they look slightly better in my personal opinion. Could this be a standard wheel on the Shelby GT500 also?

I received 2018.48.12.1 software update. Here's my video review - It includes a new "Keep Climate On" (Camp) mode that allows you to fix the temperature for long period of time and then it will only turn off when your battery has 20% of power left. Before this if you closed your doors and put the

car in park it would turn off your climate after a few minutes.
